DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Joseph Scafetta on February 22, 2005.

The application has been amended as follows:

The following changes to the drawings have been approved by the examiner and agreed upon by applicant:

In Figures 9 and 10, the label **--Prior Art--** has been inserted as shown in the attached drawing sheet.

In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

Allowable Subject Matter

Claims 1-5 are allowed over the prior art of record.

The following is an examiner's statement of reasons for allowance:

Regarding claim 1, the references of the Prior Art of record fails to teach or suggest the combination of the limitations as set forth in claim 1, and specifically comprising the limitation of the funnel body portion having a concave portion formed around the yoke portion, the concave portion having a depth of 10 mm or more, the depth of the concave portion being a distance in a

direction of a bulb axis between a point on an outer surface of the funnel body portion closest to the neck portion in the direction of the bulb axis and a point on an outer surface of the concave portion farthest from the neck portion in the direction of the bulb axis in a first funnel section, which is a cross-section containing the bulb axis and a point P_{s1} lying closest to the bulb axis and on the outer periphery of the seal edge portion.

Regarding claims 2-5, claims 2-5 are allowable for the reasons given in claim 1 because of their dependency status from claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Other Prior Art Cited

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
